Well-being message

What promoting positive behaviour involves

Parents and carers who provide boundaries as part of a loving and secure relationship with their children help children feel secure and self-confident. Children benefit from knowing that their environment is stable and that a competent adult is taking care of them.

There are three aspects to promoting positive behaviour:

1. A learning environment that is positive and supportive
2. Strategies for building skills and strengthening positive behaviours
3. Strategies for decreasing undesired behaviours
