Parent feedback opportunity -GOVchat

Research shows that children become better learners when parents are actively involved in their education.

The South Australian Government wants to help parents to be actively involved in their children's learning from birth onwards.

No matter what background or skill level a parent has, research shows that when parents are involved in their children's learning, it can have very positive results on their education.

On 4 July 2016 we want to hear from you!

Call 1800 216 506 to share your feedback between 5:30 pm and 7:30 pm.

Speak directly with decision makers from government, including Education and Child Development Minister Susan Close, about how we can better support you in understanding and participating in your child's education.

All feedback and calls received through GOVchat will help inform the DECD Parent Engagement Strategy.

Canteen

This Thursday 30th June the Canteen will be selling corn on the cob at recess and lunch for \$1.00.

Well Being Message

Belonging and connectedness improves mental health and learning

A sense of belonging has been found to help protect children against mental health problems and improve their learning. Children who feel that they belong are happier, more relaxed and have fewer behavioural problems than others. They are also more motivated and more successful learners.
